

Introducing: Purus Air

Sustainable Solutions for Soil, Water & Air

Purus Air Biosecurity solution cleans both air and surfaces disinfecting everything within...

Our proprietary dispensing technology distributes as a dry fog, critical for reaching wherever air flows - on surfaces and in tiny crevices untouchable with common spray/surface wipes or electrostatic sprayers.

Proprietary (DRY Fog) - Safe (Natural Oxidant) - Effective (Air & Surface)

- When used properly, safe for people, pets, plants, electronics, sensitive equipment, upholsteries, paper, furniture, carpet, office environments, etc.
- We kill pathogens including bacteria, viruses, and more.
- Earn trust and confidence from your employees, customers, partners, students, patients, etc. that your facilities offer a safe, healthy environment.

The PURUS AIR large room fogger and mobile backpacks are the new standard in Biosecurity. Units available for purchase or for local operators to provide disinfection services.

Purus Air, Purus Water, Purus Soil: The total solution for Agriculture

A new chapter of Cleanstrike's strategic solution suite has opened a technology door that aggregates all Purus categories into one. As existing and approved technologies being used in outdoor and indoor grows of all kinds, we have combined them all into one powerful program.

Purus Water, Soil, and Air solutions have been strategically woven together to provide for a complete eco-system that solves most problems found primarily through in-house (indoor and greenhouse) growing facilities. We offer dry humidification, cooling, disinfection, and improved growing by distributing our water and soil-algae solutions all through one system. Meaningful benefits including, but not limited to, equal and consistent distribution and results, increased yields, fantastic germination rates, pathogen and pest reduction, and healthier soil and plants are the goal.

Other agricultural advances from the growing of crops to the rearing of animals (dairy, livestock) and additional target markets of all kinds are opening every day!
